# The Annual Quality Assurance Report (AQAR) of the IQAC 2014-15

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. *(Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)*

- Water holes are made and  Birds,squirelles  are served at various points with corn  tied to the trees in the campus by student volunteers.

# Criterion – VII

## 7. <u>Innovations and Best Practices</u>

   7.1  Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

- **Student Parliament -** The aim of the Student Parliament-a democratically set up students' body partially resembling the Parliamentary system of the Indian Republic is to bring together students and teachers on a common platform to promote the idea of participation of every student and teacher in governance through ASIC engagements. It operates on the principle of '**one more opportunity for a student and one additional responsibility to the teacher',** providing the students and teachers alike, an opportunity to develop and hone their leadership skills. This leadership workshop as it is called thrives to achieve excellence through student-teacher participation at every level of college administration.

- **ASIC Committees - ASIC Committees** *i.e.* Administration Support, Student Support, Institution Support and Co-Curricular Support committees which are directly connected with college governance.It is mandatory for every student and teacher to involve in any of these commities.

- **Weekly Assembly**- An event where talent is acknowledged and appreciated, a platform for college newsletter releases – **Achiever, Vichara, Infolet, Capitol,Kadamba,Muses,Spoorthi etc,** birthday greetings and charity announcements are also an  interesting part of this event. Assembly commences with the rendering of the State Anthem and concludes with the National Anthem. This platform ensures the direct dissemination of information of the events past and future week, information relating to key issues such as announcement of examination scheduling, payment of fees and call for volunteers of activities. This is held on every working Saturday between 10.30 a.m. and 11.00 a.m.

- **Education Report**- Is a detailed document printed annually reporting all the activities of the departments and the various committees and foras. It provides information on faculty wise admission details, result analysis, performance of the college and also the synoptic overview of all the Departments and ASIC committee activities conducted for the period.

- **Class Teacher Concept-** The college/department appoints class teachers/mentors from amongst the faculty members, who interact with the students in their classrooms on a day to day basis. This interaction provides vital information to the faculty members about the knowledge levels of the students and also helps in identifying knowledge gaps in the students on a regular basis.

- At PG each faculty is required to present the research paper in staff seminar which is held once in a month.

7.2  Provide the Action Taken Report (ATR) based on the plan of action decided upon at  the beginning of the year.

The programmes are chalked out at the beginning of the year (action plan) has been implemented.

**Alumni** Meet is held on 2<sup>nd</sup> Sunday of December every year. Among other things curriculum related issues are discussed informally with them and their opinions with regard to updating the curriculum based on the market requirements are taken. In addition, the Departments of Social Work and Commerce have an active Alumni Association which conducts meeting periodically.

**Parents** opinions are taken at the Parents Teachers meeting which is held regularly.Formal and informal meetings are held to keep them aware of their ward's progress and to find future linkage possibilities. In addition to this, parents are invited to the department wise meetings held on every working Saturdays.

**Employers/Industries:** Various departments depending upon their need, organize workshops, special lectures, fests and seminars, wherein employers/industrialists are invited to deliberate on the industrial requirements. The outcome is suggested to be incorporated in the curriculum is communicated to the respective Boards of Studies of the University of Mysore. The Management and Principal of the Institution regularly meet the employees department-wise and interact with the members of the teaching staff. During such meetings, the mutual feedbacks are obtained.

**Academic peers**: Informal discussions are held with the academic peers in the 'Teachers' Association' meetings and the feedback received from the students, alumni, parents and employers are exchanged. HoDs, Staff and Departmental meetings are held regularly and feedbacks obtained there are duly attended to.

**Community**: As the institution is an affiliated college, the feedback from the community in designing the curriculum is taken care of by the parent University itself.

## Format for Presentation of Best Practice

1. **Title of the Practice**

   **This title should capture the keywords that describe the Practice.**

   Student Parliament.

2. **Goal**

   **Describe the aim of the practice followed by the institution. Mention the underlying principles or concepts in about 100 words.**

   The aim of the Student Parliament-a democratically set up students' body partially resembling the Parliamentary system of the Indian Republic is to bring together students and teachers on a common platform to promote the idea of participation of every student and teacher in governance through ASIC engagements. It operates on the principle of '**one more opportunity for student and one additional responsibility for the teacher**', providing the students and teachers alike, an opportunity to develop and hone their leadership skills. This leadership workshop as it is called, thrives to achieve excellence through student-teacher participation at every level of college administration.

3. **The Context**

   **Describe any particular contextual feature or challenging issues that have had to be addressed in designing and implementing the Practice in about 150 words.**

   Change is always resisted at its initial stages. The idea of Student Parliament was proposed and implemented, a general hesitancy was found to don the additional responsibility among the students and teachers. Breaking the barriers between teachers-students, to motivate them to come out of their safe zones and inspiring them to take up greater responsibility was a challenge.

   The reluctance from the Student Population, to abide to such a practice at college level was certainly evident. Further, motivating students in such a scenario to adapt and internalize the positive elements of this practice was quite demanding.

   The immediate objective of Student Parliament is to creatively engage the students to harness their potentials. The long run objective is to address the dearth of efficient leadership in our society. The concept has been appropriately nick-named as the perennial leadership workshop run by the college.

   However, over the years the systematic approach and efforts of the experiment have succeeded in making people realize that such a practice like – Student Parliament will reap the long term benefits for the college and for students. Today, the practice has its own identity.

4. **The Practice**
   **Describe the Practice and its implementation in about 400 words. Include anything about this practice that may be unique in the Indian higher education. Please also identify constraints or limitations, if any.**

   The Student Parliament is a broad-based pyramid like structure. All the students of the college, constitute the electorate and the classes are the constituencies. The classes participate in the simulated general elections of the college by putting forth their representatives as the candidates. Ten students will have the privilege of sending one representative to the Parliament. Thus, the ten member group becomes the smallest electoral unit. Each unit decides its representative by way of unanimous decision or by way of elimination through election. Put together, all classes would send 181 representatives to the Parliament. The Principal nominates outstanding students who have excelled in academics, cultural activities and sports and some from those sections of the student population which might go unrepresented, like the international students, non-Karnataka students, differently abled, minorities etc to the Student Parliament.

   In the second stage, the CRs are distributed among the subcommittees which function like the ministerial portfolios broadly categorized under four heads, popularly called the **ASIC Committees** *i.e.* Administration Support, Student Support, Institution Support and Co-Curricular Support committees which are directly connected with college governance. The number of elected class representatives in each of the committee depends on the nature and dimension of the work involved under it. The senior most amongst them is designated as Organizing Secretary who is equivalent to a student minister. No area or aspect of college is beyond ASIC and no single ASIC is beyond the access of the student.

   In the third stage, a member of the teaching staff is identified as the Convenor for each of the Sub Committee. The Convenor's role is advisory in nature and though the Organizing Secretary is the Executive head, he/she functions seeking the guidance and directions from the teacher convenor. Generally each staff member is allotted one committee as per his/her choice/aptitude or capacity. ASIC manifests the collective task executed by both the teachers and students with timely support and guidance from the Principal.

   The Student Parliament meets once in a month regularly to discuss upcoming programmes and to seek the opinions and suggestions from the CRs in connection with daily administration of the college. The practice has emerged as a highly valued participative exercise which provides a platform for the student leaders to express themselves and work for the good of the student community at large. This is a system which includes everyone in the college and it provides sufficient grounds to students to develop their leadership skills and take up responsibilities on their shoulders on their way to become, may be, the future leaders of the society.

   Parliament in its advanced form is a cluster of motivated students who act with dedication, harmony and a sense of responsibility. These clusters are near autonomous structures whose propelling energy is generated from within not from outside. Choosing the Class Monitor, popularly called CM, for each class on a rotation for each month and forming a council to

select the Prime Monitor (PM) for each month gives a very dynamically charged up simulated democratic systems of Governance for daily administration of the college.

Matching the vigor of the youth, the teachers have guided them to form a nodal centre to train the aspiring institutions in these lines. They have moved out of the institutions to reach other institutions who have sought assistance in this direction.

5. **Evidence of Success**
   **Provide evidence of success such as performance against targets and benchmarks and review results. What do these results indicate? Describe in about 200 words.**
   There are 107 different committees which are functioning as on today.

A review of students' and teachers' engagement with ASIC was made to study the effect through structured questionnaires to elicit their response. CRs and the staff convenors took part in the study. Student Parliament and ASIC engagements is all about leadership, responsibility and student-teacher participation. 82% of the OSs are aware of their responsibility, and 74% of the elected CRs chose to become CRs to test their leadership quality. 52% of the CRs have a cordial relationship with their class teachers while 35% said it was a productive one. 74% of the CRs felt their tenure was useful. The high response indicates that through ASIC young students can be enthused on a leadership trail. Leadership is of great value. ASIC has well defined areas to groom good leaders. Some experience drawn here can be tried in real life situations too. It also indicates that CRs working with commitment in tandem with the class teacher and the Principal contribute to the overall betterment of the institution.

6. **Problems Encountered and Resources Required**
   **Please identify the problems encountered and resources (Financial, Human and other) required to implement the practice in about 150 words.**

Student Parliament and ASIC experiments are a newly developed concept which is based on general faith and confidence in the students. It is an ambitious programme which is designed to be by them, for them and of them and that almost leads to self-governance by students when it reaches its final stage. The practical implementation of it certainly calls for an enormous amount of patience, willingness to take risk and perfect knowledge as to how the system functions. There are challenges enroute but they can be overcome/mitigated:

1. Non co-operation by students who do not want to share the privileges of leadership with others.
2. Resistance by staff members who are complacent and do not like additional responsibilities other than academics.
3. Half hearted approach by CRs and teachers towards less attractive portfolios.
4. Too much of involvement by students in the ASIC activities may affect their studies nullifying all the benefits that might accrue out of it.

7. **Notes (Optional)**
   **Any other information that may be relevant and important to the reader for adopting/ implementing the Best Practice in their institution about 150 words.**

The discussed model would become a success only with the wholehearted support from all the stake holders. Proper training to students and staff members on the principles of the system and its execution is very essential. A blue print to start with is ideal. It is better to carry out a pilot test with one or two classes to see how the concept can be practically extended to the college.

The college has nearly captured the concept to perfection. It has now become a practice well established. We have gone a step further to document the outcome of the experimentation through a well classified report. It can be seen there that the entire stock of ASIC comes out with vision statements, list of annual programmes and future goals.

It is a dynamic idea which can be harnessed to fetch useful results. It is a tool for empowerment of youth and a laboratory to generate future leaders.

# Best Practice - 2

### 1. Title of the Practice

Education Report

### 2. Goal

Objective presentation of academic and co-curricular records of the college, annually.

### 3. The Context

Proper planning and meticulous execution are the hall marks of success for any organization. But, scientific management of an organization is always based on well documented information made available at the most appropriate time. Therefore, creating a data base is the fundamental requirement before taking up any meaningful activity. Because, that would give a direction for what is going to be done. The Education Report published by the college, in that sense, is an act of creating a dependable data base for and of the college, based on facts, figures and recording of real experiences.

The college is engaged in a multitude of activities, both academic and administrative in nature. The academic activities consists of those which pertains to students and teachers, eg. Results, attendance, internal assessments, library books, seminars, workshops, special lectures, soon and so forth. Admissions, salary disbursement, finance and establishment are the examples for administrative functioning. The whole lot of data pertaining to these areas as well as others are to be first ascertained and stored inorder to make use of them at a later point of time.

The Education Report is so designed that it has a place to record every single organized activity under appropriate heads, for the college as a whole, and for departments, teachers, students and office. A pre-drawn format to enter factual details is made available. The college related macro picture is given in the general section at the very beginning of the report. It is followed by four major sections identified with the letters A, S, I & C. These letters are significant and they represent Administration support, Student support, Institutional support and Co-curricular support. Numerically there are more than 100 areas under which the documenting exercise is carried out. Together, these classified documents bring forth the collective single image of the college in a very orderly fashion.

### 4. The Practice

A sample format would contain eight specific heads. Every single department or ASIC Forum would fill them on a prescribed pattern. The chronological order would contain the following specific stages. It starts with name or title of the Department or ASIC Forum, followed by the Vision statement and the Mission statement. Activities carried out in one academic year is documented in the next stage. For a department it would also include results of the Semesters. Future plans are the next major title.

---

It is evident that all related and relevant information are entered in the report. It specifically serves the following objectives.

1. First hand information about the department / ASIC for one year.

2. Knowledge of end result or the final outcome of all the activities.

3. Scope for self evaluation.

4. Correction, adjustment and goal fixing for the next period.

5. Opportunity to compare against performance of others.

The Report also has a section earmarked for synoptic presentation of diary of events, starting from the first day to the last. This is the most valuable section which chronicles every worthy activity or event that marks a year in the life of the institution. This makes the report inclusive and complete.  For, the major segment of the report is likely to miss on the minor events, which also has a significant role in the overall making of the institution. Thus, everything is included in the report.

The front cover page design is consistently followed over the years, without any change. The back cover page has the Vision and Mission statement of the institution. And, to make is close to real life and indicative of research quotient involved, it is produced in black and white. These are the starting features which makes the report stands out.

5. **Evidence of Success**

   It is a unique experiment carried out by the college now being studied as a best practice. The massive exercise of producing report is an exhilarating experience. It involves a participative contribution by the Stake holders. Everything that is done or enacted finds its way to record books to finally make it a part of Education Report. It is an experiment carried out in the laboratory of the college. The result of which has very great educational value. It mirrors the institution as it is and holds out the true picture of the institution both for internal use and public consumption.

The significant points about the report are listed below.

1. Every activity is made measurable.

2. The outcomes and performances are quantified and recorded

3. It provides a road map for the future journey.

4. It heralds the inclusiveness practiced in the operation of the institution.

5. It fetches tangible results.

6. It evolves into a replicable model.

The University of Mysore has, today accepted this as one of the model practice to be implemented in 200 plus institutions. It has today formed, part of an important report submitted to University of Mysore. This is an indication to its potential and universal applicability.

The art of preserving the vital information regarding all those activities which makes the institutions, for the benefit of the posterity, is achieved by this practice. The reports for a period of time, taken together give valuable reflections to the making of the institution. The active involvement of students and teachers, first in productive engagements, and then, in recording them in the form of the report is a testimony for the commitment of them in actualizing the goals of sustained education. The impact is very much visible. They develop a rare skill development among them which may have lasting value for both of them.

At the community level, another kind of impact is seen. Infact, the Department of Collegiate Education had made arrangements to send a copy each of the Education Report to Government colleges coming under its jurisdiction.

The 2012 report was released by the then Chief Minister of the state. It bears testimony for its importance. It is conceivably the most innovative proposition that was ever tried by this institution, with a far reaching impact upon other institutions as well as the institution which are open minded, proactive and willing to probe multi-dimensional acumen of Education Report.

## 6. Problems Encountered and Resources Required

It took some time before realizing the worth of the exercise. To convince the staff and students about the need for such a report also demanded a fair amount of human resource management. Apart from this, the cost involved was also quite high.

## 7. Notes (Optional)

For our understanding, it is for the first time that such an endurable exercise was even undertaken by a college. The college has received accolades for its novelty. Even reputed institutions have shown interest in the concept and tried to emulate it. It is a fulfilling moment to have planned and executed Education Report.

## SWO Analysis

The details of SWOT analysis carried out (in terms of methodology used analysis and information and data as collected and Inferences derived with respect to strengths, weaknesses, opportunities and threats).

- Based on SWOT analysis, provide the "strategic plan" developed for institutional development.
- How the key activities proposed in the Institutional development Proposal are linked with the results of SWOT Analysis.

### METHODOLOGY

The departments of the college prepare an annual Educational report, by summarizing the activities and achievements during the year. This is the basis of the SWOT analysis of the college. The departmental inputs provide with each of the component of the SWOT. Though the criteria may be varied, they are compiled on broad basis and subject to analysis. In addition to this a questionnaire was circulated to all the stake holders.

### ANALYSIS, DATA COLLECTION AND INFERENCES

Collected information is compiled by the IQAC and broad terms of references are taken into consideration for the analysis.

The data is in the form of open ended opinions of the departments, filled in questionnaire from the stake holders was processed by using ranking software. The inferences have been drawn from both the departmental reports and as well as the compiled data of the survey. Resolved issues concerning the teaching-learning process are deleted and only the unresolved issues are reported.

### STRENGTHS

S1 The College enjoys good societal rapport and has several innovative practices.
S2 Student Centric and Knowledge Centric Institution led by great visionaries.
S3 Diverse academic programmes.
S4 Value based Education.
S5 Highly qualified and experienced faculty members.
S6 Innovative teaching practices.
S7 The College enjoys good societal rapport and has several innovative practices.
S8 Student centeredness.
S9 Industry Institute partnership.
S10 Invited lectures from the corporate representatives.
S11 Seminars and workshops in collaboration with professional bodies.
S12 Student parliament empowers student participation in college development activities.

S13 Academic support, Student support, Institutional support and Co-curricular support [ASIC] Committees are a unique feature in this college.

S14 The Weekly Assembly held on every Saturday is another feature. It commences from the rendition of the State Anthem and ends with the National Anthem. It is mainly focused at felicitation of all achievers, dissemination of information from a single platform.

S15 In-House Publications such as the Weekly Achiever, Monthly newsletters from the departments etc are yet another feature.

S16 Effective mechanisms are in place for enhancing the additional skills of the students to make them employable. These are by Knowledge and Skill interventions organised by external experts and as well as faculty.

S17 A reasonably good placement profile

S18 Good faculty members are an attraction for the students to seek admissions. Despite of several colleges opening in the near geographic vicinity, the college enjoys good student strength.

S19 Reasonably good infrastructure, ambience and ICT facilities.

S20 Research based knowledge

S21 Research cell in some courses.

S22 Research publications by faculty members,

S23 Major and minor research projects funded by UGC.

S24 Effective dynamic yet democratic style democratic style of leadership of the Principal and enlightened and service motivate Management is one of the great assets of this institution.

**WEAKNESS**

W1 As the First Grade College is located in a predominantly urban area, there is very little scope for expansion of the infrastructure. This is due to the non availability of land in the vicinity.

W2 Requirement of the state of the art ICT (MIS, making use of National Knowledge Network (NKK)), as the infrastructure is prone for technological obselency.

W3 ICT facilities are not available at all classrooms.

W4 Some of the programmes offered have not had many applicants. This is true of Science and Technology, Sociology and English which is also reflected in the admissions of the other institutions in the University Mysore area.

W5 As the institution is affiliated to the University of Mysore, new programmes have not been incorporated by it.

W6 Interdisciplinary programmes are not offered, mainly due to the lack of infrastructure.

W7 Many programmes are in the Self-finance mode. Hence there is a shortfall in the budgetary allocation for the equipping of the laboratory and other infrastructure. Most of the budget is diverted towards the salary component of the faculty.

W8 The absence of Boys Hostel facility is another weakness, which would, when provided, increase the intake of the out station and international students.

W9    Library grant is another shortcoming.  Hence, it leads to the departments to rely upon the central library totally. Departmental libraries would also help in the undertaking of research projects etc.

W10   Funding for the research projects by faculty and students are limited.  Greater financing of the same will improve in the numbers of the faculty and students research, in a number of research projects as principle investigators.

W11   In house Journals are constrained due to lack of funding. This will enable Publications in the form of researched articles.

W12   Very few students opt for civil services and other governmental sector for employment due to the lack of proper training, to approach these examinations.

W13   Placement activity is on the decline. Training the students for employability at the corporate sector is falling short of expectations.

W14   Sports infrastructure is lacking as there is an urgent need for an athletic track, swimming pool, etc., which would enhance the quality of the college players' performance.

W15   Large numbers of the faculty serve on Temporary basis, which has resulted in frequent turnover of the faculty members.Salaries and allowances of faculty, both teaching and non-teaching are not on par with the prescribed scale, as many of the programmes are Self-Financed in nature.  Government Grants for salaries is available for very few faculty members.

## OPPORTUNITES

O1    The college is located in a highly culturally awakened city; hence it attracts students of good academic as well as extra and co curricular talent.

O2    Becoming an Autonomous Institution

O3    Acquiring University Status

O4    Collaboration with Foreign University

O5    The college has used grants from funding agencies and has partially provided the institution with the state of the art facilities of complete ICT mode of teaching-learning in a few departments.

O6    Faculty members have taken up Minor and Major projects financed by UGC and CPE Grants.

O7    Faculty members are motivated to enhance their qualification and as well as to be involved in many statutory bodies of the University of Mysore.

O8    Faculty members are made in charge of one sub-units of the ASIC committees, depending upon their special interest and talent in that particular area.

O9    Due to the excellence of the faculty members, the college attracts a good number of International students.

O10   Funds under the UGC plans and CPE grants are made use of to organise seminars, workshops and as well as training programmes for faculty and as well as students.

O11   Innovative academic Programmes.

O12    Masters-Ph.D Integrated courses

O13   Online Programmes

O14    Evening Programmes

O15   Interdisciplinary Courses
O16   Global Partnership
O17   Collaboration with Foreign University
O18   Student and Faculty Exchange Programmes

**THREATS**

 T1   Many colleges both in the Government and the Private domain have posed a threat vide student admissions.
 T2   Large numbers of students are in the self- financed programmes, leading to high fee and costs.
 T3   Lack of modernized Curriculum for technical courses that suit the Industry needs.
 T4   Attrition of the faculty, as they are either temporarily employed or for the want of satisfactory wages.
 T5   Challenge of meeting the changes in the market directly affecting the contemporary rigid academic structure
 T6   Large numbers of students are in the self- financed programmes, leading to high fee and costs.
 T7   Lack of  modernized Curriculum for technical courses that suit the Industry needs
 T8   Attrition of the faculty, as they are either temporarily employed or for the want of satisfactory wages.

**General Observation**
After the accreditation college made several changes on the basis of the recommendations given in the peer team reports. Most of the recommendations given in accreditation report have been fulfilled by the College.

**CRITERION WISE ANALYSIS**

**Curricular Aspects:**

**Curricular Design & Development:**
        The institution has clearly stated its goals and objectives that were also communicated systematically to all its constituencies and stakeholders. The vision of the college is" imparting education with professional approach to make finer citizens: economically useful, socially responsible and culturally remarkable". The mission is "to develop necessary facilities to achieve accepted goals, to provide enriching inputs for better careers, to empower youth for contemporary social tasks and to support social endeavours and traditional values with sustained efforts".

        All the academic programmes are in line with the institution's goals and objectives. The programmes are oriented to Social relevance and national development. The programmes are

taught with career orientation and for meeting the trends of globalization with quality dimensions, Value orientation and Heritage. The goals and objectives are laid down in the college education report provided to the students, teachers and stakeholders. The institution meticulously plans and develops action plan for the effective implementation of the curriculum.

The academic calendar is issued, well in advance, before the beginning of the academic year which helps the staff members to plan and decide steps to be initiated to achieve the goals.

The departments attempt to transact the curriculum through teaching-learning viz classrooms, laboratories, seminars, symposia, educational visits and several other co-curricular activities.

**Academic Flexibility:**
The programme options provide a lot of scope for promoting general competencies and skills among all students, in addition to Inter and Multidisciplinary studies. Employability is one of the considerations in the overall development of the curriculum. The institution has a wide range of programme offerings that provide adequate academic flexibility. Options are also available for students to take additional / supplementary / add-on courses along with their regular curricula.

**Feedback on Curriculum**
There is a structured feedback analysis followed by the institution as evaluation is made by almost all stakeholders. The students' opinion regarding teaching and evaluation is collected by the college through IQAC.

The parents also express their opinion during their periodic meetings. The alumni also give their feedback on evaluation mechanism and various developmental issues. The organizations which visit the institute for recruitment selections also give their feedback about the competence of the students and corrective measures.

**Curriculum Update**
The updation of syllabus is done on a regular basis, facilitating the incorporation of advanced topics, through Boards of Studies in the University, once in three years. There is visible faculty participation and initiative in the curriculum development and restructuring carried out at the university level.

**Best Practices in Curricular Aspects (If any):**
The College annually prepares a handbook ( Academic planner as Calendar) containing programmes of courses, time-table, dates of various activities, internal evaluation, college rules, schedule of curricular activities, cultural activities, functions, extension services etc. This handbook is distributed to the students before the commencement of the academic session.

**Teaching-Learning & Evaluation:**

**Admission Process and Student Profile**
Admissions process is transparent. Counseling offered to students before selecting courses helps them in proper programme selection. Approved government and University norms are adopted for admission. The college ensures proper access and equity to all sections of the society.

**Catering to the Diverse Needs:**

Slow learners are identified and remedial coaching is given to improve Spoken English, Communication skills and quantitative methods. The College is following a Class-Adviser system for mentoring the students. Weak students in various subjects are helped by the faculty.

**Teaching-Learning Process:**

The teaching schedule and methodologies are planned and organized in advance. Educational Technology is effectively used by the faculty. For this purpose, the College is equipped with modern gadgets for teaching, learning and research.

The institution also encourages students with IT enabled teaching and ICT facilities to keep pace with the modern trend of development in curriculum and curricular transaction with quality and competence. The campus has Wi-fi network. In order to make teaching-learning more effective almost all the departments conduct workshops, seminars, group discussions, quiz, field visits, and study tours. Internet and audiovisual aids supplement the teaching-learning process in some departments. The routine class room teaching is supported by debates and lectures by experts. Class room interactions of faculty and students is highly visible and students attendance is continuously monitored. Many departments provide job oriented training to the students.

Students and faculty make optimum use of library and laboratory resources. Through student seminars, quiz programmes, field trips and project reports, students are given practical orientation.

**Teacher Quality:**

Twenty percent of the teaching faculty members have M.Phils and Ph.Ds. Seventy-five percent of the positions are under grant-in-aid scheme and the remaining are filled up by the management. Recruitment of faculty is done as per State Govt. and UGC norms. Many teachers have availed the faculty development programmes.

**Evaluation Process and Reforms:**

There is Internal assessment component in the evaluation system of courses. Continuous evaluation of students' progress is done by conducting regular centralised tests. Continuous evaluation and monitoring of students' progress are done with care. The college conducts centralised tests and university model tests.

**Best Practices in Teaching-Learning and   Evaluation (If any):**
Student mentoring throughout his/her course of study is attempted by the teachers.

**Research, Consultancy & Extension:**

**Promotion of Research:**

The faculty who have doctoral degrees have shown periodical publication of research papers. The institution provides a start- up grant  for research and  development. Around Fifty percent of the faculty have published their research articles in reputed Journals.

The College has constituted a separate Research cell to coordinate all the research activities of various depart and their faculties and also to initiate new research schemes. The research activities of the College have increased with the recognition of 2 PG departments as Research Centres by the University of Mysore.  A few teachers have done minor and major research projects and some are carrying out minor research projects, at present.  Each department invariably has one or two on-going minor research projects. Research facilities and progression are very significant in the PG departments.   The management is providing   support for research and provides funds for travel for presenting papers and attending conferences and seminars.   A few teachers have authored books and contributed in edited volumes.   The teachers have published a good number of research articles/papers in international and in national journals. The college has made it mandatory to publish atleast one paper per faculty per year scheme.

**Research and Publications Output:**

The faculty members have published a large number of articles in national and international journals, presented papers in both national and international seminars and conferences. A few faculty members have authored books with ISBN numbers. Innovations in teaching and learning process are made by introducing seminars and projects at UG and PG level.

A few Departments regularly bring out their newsletters . Teachers have individually and jointly published some books. There is a need to strengthen the publications of faculty in terms of research papers, books and articles.

**Consultancy:**

Formal consultancy is not visible.  Informal consultancy to the neighboring villages is extended, by a few departments.

**Extension Activities:**

The College organizes regular outreach programmes for the welfare and upliftment of the neighbourhood, through its sociology and social work departments. Such activities include medical camps, awareness programme for health and hygiene etc.  A large number of teachers and students donated blood through blood donation programmes in the College. The environmental science department created awareness about clean campus programme, methods of protecting the environment and conservation of water.  Community services through NSS, Medini, Counselling Centre, and Programme on health and AIDS awareness through Sanjeevini and Public Education Programmes were organized. For recreation and relaxation, programmes like music, dance and yoga were also conducted.

**Collaborations:**

Collaborations exist at the college level with industries  and agencies for on-the job training and educational progress of students.

In addition to earlier MoUs, the college has recently entered into Memorandum of Understanding with some selected institutions with a view to secure academic co-operation, knowledge sharing and to run new courses and develop good infrastructure:

1. College for Leadership & Human Resource Development (CLHRD), Mangalore
2. Justice K S Hegde Institute of Management, Nitte
3. MGM Industries, Mysore
4. Vedavyasa Foundation of Yoga & Spiritual Academy, Mysore
5. Karnataka Tourism Department
6. Nehru Memorial College, Sullia
7. St. Philomena's College, Mysore
8. Glonet Pvt. Ltd. – Maldives.

## Infrastructure and Learning Resources:

### Physical Facilities:

The First grade College campus houses three major blocks having   --  class rooms , ---laboratories, seminar halls and conference rooms, in addition to the office, library and Edusat halls. Most of the departments have LCD projection facilities for ICT enabled teaching. There is a smart class-room in the Geography department.

All the classrooms of the PG centre are well equipped with computer, internet and other teaching aids. The College has kept pace with its academic growth by gradually augmenting its infrastructure facilities.   The college makes optimum use of the infrastructural facilities to the optimum level.

There  is also  provision for research facilities in terms of laboratory equipment, research journals and research incentives.

### Maintenance of Infrastructure:
The maintenance of the infrastructure is very good.

### Library as a learning resource

The main library of the College housed for UG students has a substantial collection of books, magazines and journals, which is to be increased considering the number of students and programmes.  The library may quickly go for providing OPAC facility with bar-code reading facilities for books for digital transactions.  The library is kept open for 8 hours (9 AM to 5 PM) every day. It has spacious reference section. It has also internet browsing and reprographic facilities. There are broadband services with a speed of 8 MBPSs, with two servers.  The functioning of the library is monitored by the Library Advisory Committee.

The library has a reading hall-cum reference section, in a separate floor. The Library Committee of the College functions to (a) promote reading habits among students, (b) attract more students to make use of various facilities of the library, (c) encourage students for further study and research in their subjects and (d) to encourage students to read  great literary works.

All the departments have computer and internet connectivity.  There are more number of Libraries to meet the requirement of students.   Almost all PG departments maintain their own libraries with special collections for the use of students.   INFLIBNET E-resources, on-line journal facilities and DELNET are available in the main library housed in both UG and PG centres.

**ICT as Learning Resources:**

The institution has a website. The milestones set for academic betterment was addressed by increasing the use of information and communication technology tools, like Audio-Visual facility, internet browsing centre, Edusat, Vsat and Research Cell, in addition to the avenues of regular teaching and learning.

**Other Facilities:**

The college has adequate number of classrooms and laboratories, administrative rooms, big space for library and reading, Gym, Sports and Indoor/outdoor Games and Girls rest room, departmental libraries with TVs, Seminar Hall, Vehicle parking space and two computer labs. University and Inter-collegiate sports and games are conducted in the playground. There is an open air auditorium.

**Best Practices in development of Infrastructure and Learning Resources:**

The best practices implemented by the institution are (a) Net worked campus and free network access to students and teachers, (b) transparent internal assessment system, (c) Invited lectures by experts, (d) language laboratory, and (e)new research division.

**Student Support and Progression:**

**Student Progression:**

The college is making efforts to remove the concept of any dropouts. The percent of progression to higher studies is reasonably good, taking into consideration the background of students. In relation to university average the performance of the institution is fairly good. Many Students of this college have secured University ranks upto top twenty levels.

The College has the honour of obtaining more than a dozen Gold Medals on an average in a year obtained from the University of Mysore.

All faculty and students of the college have actively participated in all the State / National / Regional Seminars organised by the college.

**Student Support:**

There is a visible participation of the students in seminar and paper presentation in some subjects and in the research activities of faculties. The establishment of HRD-I, II and III units were primarily set up to teach Personality Development and communication skills to students. The library has been upgraded by adding a new reference section, setting up digital and virtual section and subscribing to on-line journals. The college campuses are safe and secure for all students.

**Student Activities:**

In order to improve the personality of students and for improving their overall academic development, the college has taken the following steps:

1. Active participation of students in seminars, paper presentations, live demos etc.
2. Personality Development Programmes
3. Participation in festivals, competitions and quiz programmes
4. Joining Sports, NSS, NCC, YSSC and other forums.

The students are encouraged to participate in many extra-curricular activities.
Facilities for sports and games are very good.
Every year, students are selected to represent the University in the Inter University Tournaments and also to represent the State level teams.
The management is proactive in providing all facilities to outstanding sports persons.

**Best Practices in Student Support and Progression:**
Management initiatives in promoting talented students in sports and games.

**Governance and Leadership:**

**Institutional Vision and Leadership:**
Vision, mission and goals of the institution are in tune with the National Policy on higher education. Institutional leadership is proactive. Management is progressive in its outlook and willing to make reforms and allocate resources wherever needed. Good team spirit among teaching and non-teaching staff is visible.

**Organizational Arrangements:**
The college has a staff council with the Principal as Chairman and all Heads of the Departments as Members. The Student parliament system is one of the new initiatives started by this college in order to go for participatory management of college activities. The Principal of the college coordinates and monitors the activities of the institution through more than 100 committees. There is decentralization and participative management.
The Grievance redressal mechanism good.

**Strategy Development and Deployment:**
The college has listed its future plans and are working as a team to achieve the targeted objectives, in association with the stakeholders. At departmental level also, future plans for academic improvements are prepared.

**Human Resource Management:**
Recruitment policies are in tune with State Government and UGC norms.
Management takes initiatives to fill up the vacancies. Performance appraisal mechanism is in place. College provides adequate welfare schemes to its staff.

The institution has taken several initiatives to enhance the academic competency of the teaching faculty. The following are to mention a few:

1. Organising Seminars, Workshops and Conferences in the college

2. Participating in State, National and International Level Seminars, Workshops and Conferences

3. Presenting papers at Seminars, Workshops and Conferences

4. Pursuing M.Phil. and Ph.D. programmes

5. Participating in outreach programmes

6. Executing Minor and Major projects

7. Publishing papers in renowned journals

8. Attending refresher and orientation courses.

To improve the quality of performance of the administrative staff, training in IT related programmes, workshops and Yoga classes were arranged.

**Financial Management and resource mobilization:**
Budget provisions for academic and administrative activities are adequate. A substantial budgetary provision is made by the management for improving the academic performance of the college. Monitoring of financial management and regularity in external audit are in place.

**Best Practices in governance and leadership:**
**Innovative Practices:**

**Internal quality assurance system:**
The college has established an Internal Quality Assurance Cell. The staff meetings are used as a forum for quality improvement and sustenance. The IQAC has already submitted its annual reports to the NAAC. The IQAC prepares the plan of action at the beginning of the academic year towards quality enhancement and the outcome achieved are analysed at the end of the year, systematically. The college has introduced the mechanism for periodic External Academic Audit for quality improvement.

**Inclusive practices:**
A fair number of women teachers are recruited to maintain gender equity.

**Stakeholder relationships:**
The college has involved students, alumni and parents to coordinate in all its activities for its all round development. Students, parents and alumni perception of the institution is very good. Parents and alumni are working in tandem for the development of the institution. The institution places special attention in promoting civic sense and social responsibility.

*OVERALL ANALYSIS*

The committee has gone through the documents and presentations made by the faculties of the departments with reference to the following aspects:

a) Teaching-learning process is organized by the departments, like the documents they have towards each of the IA components
b) How effectively the faculty members have been using or adopting IT in their teaching programme, methods adopted by the faculty in group discussion, tutorials conducted, if any, assignments, seminars (a must for PG students)
c) Involvement of the departments in suggesting to the concerned BOS any modification of the curriculum
d) The methods adopted by the departments to develop leadership qualities among the students
e) Research undertaken by the departments or by individual teachers.
f) Faculty development activities by the PG departments and the College in general.

g) The method adopted by the College in the evaluation of the performance of teachers by the stake holders

h) The academic freedom enjoyed by the faculty

i) The encouragement of the management for the academic growth of the of the faculty

j) System of governance followed

k) Infrastructure built

l) Library and its activity in providing required academic support to both students and faculty

m) Significant achievements of students in different sectors

n) Best practices followed or adopted by the College in different areas etc.

o) The academic performance of the institution including the students composition.

**Institutional Strengths:**
- Good physical infrastructure and campus environment.
- Congenial atmosphere for learning with harmonious relationship among the stakeholders.
- Supportive management for developmental activities.
- Involving large number of students through "Student Parliament" for participative role.
- Motivated, talented and disciplined students.
- Healthy financial status.
- ICT in teaching-learning.

**Institutional Weaknesses:**
- Research profile of 50% of the faculty.
- Centralization in academic administration.
- Absence of adequate strategy to retain qualified faculty.
- Absence of master plan for the growth of the campuses.

**Institutional Opportunities:**

- Potential to play a significant role in higher education.
- Attracting a large number of NRI/overseas students.
- Scope for greater linkage with the industry.
- Opportunity to play a significant role for inclusive education.
- Encouraging entrepreneurship and innovative practices.

**Institutional Challenges:**

- Creation of second-line of academic leadership.
- Promotion of research culture among all the teachers.
- Strengthening core competence in a constantly changing global and competitive environment.
- Improving the placement record.
- Strengthening the alumni network.

**Recommendations for Quality Enhancement of the Institution**

- Special attention to be focused on academic departments which are not well developed.
- The setting-up of a fully automated facility in the central library is to expedited.
- Departmental libraries need to be strengthened with multiple copies of standard text books.
- Alumni association be formed for active participation in the institutional development.
- Facilitation process for enrollment of foreign students needs to be improved.
- Decentralization of academic activities and more autonomy to institutes coming under different faculties.
- Generating more funding for research and development be given focus.

- Efforts need to be made through Alumni to create Endowment fund.
- The unique feature of "Student Parliament" practiced by the college may be restructured to address many contemporary issues by the student community.
- Efforts to be made to get major research projects may be in association with scientists from CFTRI or DFRL or faculty from the University.
- Language departments especially Kannada may plan to enhance translational skills of students.
- Department of Sociology may associate with NSS to develop data on socio-economic and educational status in the villages adopted.
- College should aim to have 100% PhD qualified faculty.
- Business laboratory need to provide practical knowledge to the students on various aspects of business.
- Through the assignments given to the students the departments need to develop digital library in different subjects over the years.
- Management may plan for the creation of a huge corpus over the years to take care of attractive salary to the faculty out of the interest accrued on the corpus.
- Management may institute attractive incentives to good performing faculty in research.
- Department of Journalism need to be provided with additional facilities for better training and showcasing of the talents.
- In the light of the college aspiring to go for Autonomy efforts be made to share the expertise available in the PG and UG departments for mutual benefits.

# GREEN AUDIT- OCTOBER 2014

College with Potential for Excellence
Education to Excel
**SBRR MAHAJANA FIRST GRADE COLLEGE**
Jayalakshmipuram, Mysore-570012
**GREEN AUDIT**

The college is located $12^0 19'16.8"$ North Latitude and $76^0 37'31.4"$ East longitude at an elevation of 783 meters MSL at Jayalakshmipuram, Mysore. The campus area is 12889.25 sq.mts with a built space of 6800 sq.mts The College has a rich diversity of plant species, both potted and large trees. It has about 38 diverse potted plants belonging to important plant families. The college is surrounded by large trees that provide cooling of interiors via shading. While retractable screens have become an effective tool, the advantage to using the shading from internal plants is that when the shading is most required, the inhabitants do not sacrifice to natural settings. The college has achieved this goal through the greening of the campus.

Location $12^0 19'16.80"$ North, $76^0 37'31.40$ East at an elevation of 783 meters

The Post graduate campus is 5 kms away from the main college. It is located $12^0 21'45.68"$ North latitude and $76^0 37'42.13$ East longitude at an elevation of 772 meters. The campus harbours many exotic plants numbering 128. Small scale plantations of Teak and Ashoka trees garland the east region. They have been very useful in high wind breaking and cooling the buildings. A beautiful park in front of the MTA department is an eye-catching site to visitors.

Pooja Bhawgath,$12^0$21'45.68"North, $76^0$37'42.13"East at an elevation 772 meters

*"I am fortunate enough to sit under the atrium, which I enjoy tremendously. Natural sunlight, green foliage and a fresh breeze (with an open atrium) in the summer time makes me feel like I'm working outside. Having worked in other offices without these features makes one appreciate how these design features can improve my outlook at work." 'The Biophilic Connection':by Dr. Ed Wilson*

Plants provide a natural solution to cleaner indoor air. When plants transpire water vapour from their leaves, pull air down around their roots. This supplies their root microbes with oxygen. The root microbes also convert other substances in the air, such as toxic chemicals, into a source of food and energy. Microbes, such as bacteria, can rapidly adapt to a chemical contaminant by producing new colonies that are resistant to the chemical. As a result, they become more effective at converting toxic chemicals into food the longer they are exposed to the chemicals. It is also important to remember that the efficiency of plants as a filtering device increases as the concentration of chemicals in the air increases.

Bio mimicry is the science and art of emulating nature's best biological ideas to solve human problems. Interior plants within a green design are a perfect example. Live indoor plants capes demonstrate nature's hearty resolve and process of cleaning surrounding air while exchanging it for fresh oxygen. For those who seek clean, natural solutions to environmental issues, live interior landscaping can serve as a living illustration, affirming belief in nature's intelligence.

Cooling Interiors via Shading Expressed as a decimal between 0 and 1, shading coefficient represents the percentage of solar heat gain that is transmitted through a shading system into a building, compared to that of a single pane of clear 1/8-inch glass. The lower the shading coefficient, the lower the heat gains through the material, and thus the better the solar control performance. While retractable screens have become an effective tool, the advantage to using the shading from internal plants is that when the shading is most required, the inhabitants don't sacrifice exposure to natural settings (plants).In order to achieve these goals the college has a large number of small and large plants within the campus. The list of a few plants are given below.

# Greening the campus

# Rainwater Harvesting

**Rainwater harvesting** is the accumulation and deposition of rainwater for reuse on-site, rather than allowing it to runoff. Uses include water for garden and other domestic purposes with proper treatment. In many places the water collected is just redirected to a deep pit with percolation. Rainwater harvesting provides an independent water supply during regional water restrictions. It provides water when there is a drought, can help mitigate flooding of low-lying areas, and reduces demand on wells which may enable ground water levels to be sustained. Sometimes it also helps in the availability of potable water as rainwater is substantially free of salinity and other salts. The stored rainwater may need to be analyzed properly before use in a way appropriate to ensure its safe use. The Microbiology department of the college provides expertise in examining the microbial contamination of the water. It has often been found that the quality of collected rainwater is generally better than that of surface water. The rainwater harvesting system at the PG campus is depicted below.

Storm water from the campus is checked by the rainwater harvesting unit located in the campus. The harvested water is used for various purposes except for drinking. It also nurses a handy fruit garden at the adjacent side of the tank. The excess outflow from the tank is used for watering the plants. . The quality of water is found to be better than surface water. A part of the out flow of the water drains into a pond which has many hydrophytes like, *Lotus, Nymphea, Hydrilla, Ceratophyllum* and other smaller hydrophytes. A few of these aspects has not been possible at the UG campus due to lack of space.

# Solar Energy

In 2011, the [International Energy Agency](#) said that "the development of affordable, inexhaustible and clean solar energy technologies will have huge longer-term benefits. It will increase countries' energy security through reliance on an indigenous, inexhaustible and mostly import-independent resource, enhance [sustainability](#), reduce pollution, lower the costs of mitigating [climate change](#), and keep [fossil fuel](#) prices lower than otherwise. These advantages are global. Hence the additional costs of the incentives for early deployment should be considered learning investments; they must be wisely spent and need to be widely shared.

Solar photovoltaic's have also been employed at both the campuses. A large solar unit at the MTA charges 8 UPS systems through which a computer laboratory with 40 units is regularly used see pictures below)

**Solar energy harvesting at the UG and PG Campus.**

# Solid waste management

Improperly managed solid waste poses a risk to human health and the environment. Uncontrolled dumping and improper waste handling causes a variety of problems, including contaminating water, attracting insects and rodents, and increasing flooding due to blocked canals or gullies. Improper waste management also increases greenhouse gas emissions, which contribute to climate change from solid waste. Planning for and implementing a comprehensive program for waste collection, transport, and disposal along with activities to prevent or recycle vast can eliminate these problems.

The major solid waste management activities are waste prevention, recycling and composting, and combustion and disposal in properly designed, constructed, and managed landfills. Each of these activities requires careful planning, financing, collection, and transport, all of which are discussed and an integrated solid waste management system has been established. This unit takes care of the Grass, leaves, and other wastes from lawns and backyard that gardens accounts for an estimated 18% campus waste. Leaf waste can account for as much as 60-80% in the fall. Strategies for the method of composting are in progress.

Solid waste management at the PG campus

## General considerations on green auditing.

A multi-utility roof garden is being set up for student recreation, canteen facilities and minor student related activities. The work is in progress.

Each of the activities mentioned above requires careful planning which is discussed by the college committee. The college has a unique program called as ASIC. Under this various activities have been grouped and each teacher is allotted with one responsibility. Two or three students are tagged to the teacher who discusses cleanness and maintaining activities in the college. The committee discuss and maintains power saving strategies, conservation of water, display and location of boards and maintaining cleanness in class rooms. All Heads of the Departments are provided with e.mails through which sharing of circulars is done thus reducing the use of print. Offices can be one of the biggest offenders when it comes to unnecessary paper waste. Whenever possible, business documents are kept virtual rather than printing them out. Not only does it minimize paper waste, it's easier to reorganize and share virtual data. Two-sided, instead of one sided is printed and unnecessary cover sheets on faxes are nixed. Large envelopes for interoffice mail and paper that's already been used for scratch paper are reused. Library paper waste and other printing paper is disposed for recycling .Book shelves are regularly cleaned and used of fungicides and pesticides are avoided .Air conditioners are used only when necessary. E-waste generated is not much. However old computer sets are sold at nominal prices to the needy college staff

*"The greening of academe is nothing new, but it seems to have taken root in a big way. Today, it's not just about doing a few good, green things -- recycling, buying green energy, building green buildings, and all the rest -- and it's not just about saving money or being seen as a good neighbour. It's about being seen as a sustainability leader in order to attract students, funding, and media attention. As a result, in a growing number of institutions, "green" has become the Big Meme on Campus. (Joel Makower, 2006)"*

# Report of the Gender Audit of SBRR Mahajana First Grade College, Pooja Bhagavat Memorial Mahajana Post Graduate Centre and Mahajana Tourism Development Institute

## Preamble

Gender Audit of educational institutions is a process for organizational assessment and a tool for action planning from a gender perspective. It critically examines the capacity of institutions to ensure a 'safe and secure' ambience for women and girl students, faculty and administrative staff. The participatory audit process helps to identify institutional strengths and challenges to integrating gender in the institution's systems and operations and in programmes and activities.

Gender audit encourages the stakeholders in an education system to engage in a dialogue and reflect about the strengths and gaps of the system vis-à-vis gender related issues. According to an ILO Manifesto gender auditing helps institutions to focus on such areas as:

- Mainstreaming gender as a cross-cutting concern within the unit's objectives, programme and budget.
- Existing gender expertise and competence.
- Information and knowledge management on gender issues.
- Systems and instruments in use for accountability, evaluating and monitoring on gender equality.
- Choice of partner organizations.
- Advocacy products and public image.
- Staffing and human resources concerning balance between women and men, as well as gender-friendly policies.
- Organizational culture and its effects on gender equality.

Three institutions of higher education functioning under the aegis of the Mahajana Education Society decided to go for a gender audit and hence this study, which was carried out by applying the participatory methodology. In each of the three institutions I had meetings with representatives of students, faculty and administrative staff, besides visiting the college campuses and women's hostels.

Given below is a brief profile of each of the three institutions.

## SBRR Mahajana First Grade College

The College which was started in the year 1982 as a women's college became a co-educational institution in the year 1989. It offers B.A., BBM, BCA, B.Com and B.Sc. courses and currently has on its rolls 2034 students, out of whom 578 are women (28.42%). The College has on its faculty 59 men and 48 women. Among the administrative staff 38 are men and 29 women.

## Pooja Bhagavat Memorial Mahajana Post Graduate Centre

This Centre which was established in the year 1999 offers Post Graduate programmes in Chemistry, Computer Science, Commerce, Economics, Life Science, Social Work and two MBA courses. The Centre has a total student strength of 655 out of whom 244 (37.25%) are women. The Centre has on its faculty 22 men and 20 women. Among the administrative staff 27 are men and 22 women.

## Mahajana Tourism Development Institute

The Institute established in the year 2007 offers Masters Courses in Tourism Administration, Tourism and Air Travel Management, a Bachelor's Course in Tourism and Hospitality and a Diploma Programme in Hotel Management. It has a total student strength of 355 out of whom 58 (16.34%) are women. The Institute has on its faculty 6 men and 4 women. Among the administrative staff 10 are men and 5 women.

## Main Issues addressed in the Report

The main areas that were covered during my interaction are listed below:

- Knowledge of the Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and legal rights of women.
- Physical facilities in the college campus and hostel.
- Security issues in the college campus and hostel.
- Awareness programmes aimed at gender sensitization and women's empowerment.
- Experiences of gender related abuse/embarrassment/harassment.

In analysing campus life from a gender perspective, the participants in the interaction were asked to identify both the strengths and gaps from the point of view of women. They were also asked to come out with suggestions for engendering the campus.

In the section that follows the outcomes of my interaction are presented. Since most of the issues addressed are common to all the three institutions, both the strengths and gaps that are outlined apply to all the three institutions. Wherever there is an issue that is specifically applicable to an institution, it has been addressed separately.

**Strengths**

- There is by and large no feeling of gender discrimination in the three campuses. Both policies and practices support the culture of gender inclusive governance, and in this sense there is a positive ambience for further strengthening the gender component in the administration and day-to-day life of the campuses.

- Selection of faculty, students and administrative staff is free from gender biases and there is clear indication of equal access to opportunities.

- The setting up of SPARSH (Sensitization to, Prevention of, and Redressal for Sexual Harassment) Committee in the institution is a positive step in the direction of addressing gender related concerns. The Women's Empowerment Committee is also making efforts to create awareness about gender related matters. In the event of an issue that requires immediate attention, this Committee takes up the matter and works out a solution. The Human Rights Forum has also collaborated with the Women's Empowerment Committee in organising gender related programmes.

- The Health and Hygiene Committee has been providing support for women students who are in need of medical attention on a case-to-case basis. The institution has a functioning network with select hospitals and in the event of a medical emergency; students are given appropriate treatment under intimation to parents.

- The Department of Psychology brings out a Wallpaper **PEP** that often addresses gender related themes. The Staff Co-ordinator presents the highlights of each edition in the College Assembly before it is released for public viewing.

- The Department of Psychology offers counseling services to women students going through stress or facing problems in their personal or student lives. The Department also offers a space for them to share their concerns with the faculty.

- Individual departments have organised seminars/workshops with a focus on gender issues. Some students have also participated in events organised by other institutions in awareness building programmes.

- There are separate toilets for women in different locations in all the three institutions. In the event of need, women staff members allow students to use staff toilets.

- There is round the clock security in the college campus and hostels. In-house security staff guard the premises.

- As per the data provided by the college offices, only 2 cases of sexual harassment have been reported in the last five years. Action has been initiated against those involved.

**Gaps**

- The activities of the Women's Empowerment Committee are largely limited to SBRR Mahajana First Grade College and the involvement of students and faculty of Pooja Bhagavat Memorial Mahajana Post Graduate Centre and Mahajana Tourism Development Institute in the programmes of this committee or with SPARSH is very limited.

- Knowledge levels of the Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013 or other legal rights of women among women students are very low. Only a few students in all the three institutions are aware of the Act or their legal rights.

- Some toilets have no locks from within, continuous water supply or waste disposal bins.

- In using the toilets located near classrooms or laboratories, women students experience a sense of embarrassment because male students are moving around.

- Copies of the provisions of the Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013 are not yet displayed in key locations in the college campuses.

**Suggestions**

- The provisions of the Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013 be displayed in a prominent place in each of the three institutions.

- Telephone numbers of Conveners of the Women's Empowerment Committee, SPARSH, local police station, representatives of women's organization can be displayed at a designated space.

- Student Committees with women representatives of different courses in all the three institutions could be set up to act as a bridge between the management and faculty **and** students. This Committee could liaison with the Disciplinary Committee for grievance redressal, if any and discussion of other relevant issues.

- In both the women's hostels student committees could be set up .This action would open up a platform for dialogue on issues pertaining to food, tensions between students of different states and up gradation of facilities.

- Awareness building programmes focusing attention on the Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013, legal rights of women and state and civil society initiatives for women's empowerment be organised periodically. As of now in most cases the tendency is to react or respond when an untoward incident occurs, but one does not have to wait for such incidents to happen. By educating women about the many new laws  upholding the rights of women that have come into existence, not only are they empowered, but also it is possible for

them to spread the light of gender sensitive knowledge in their families, class rooms and neighbourhood.

- It is advisable to involve male students whenever gender sensitization programmes are organised as this is basic to the creation of a gender sensitive society.

- A Committee involving faculty from all the three institutions could be set up to plan and organize these gender awareness programmes. During my interaction with the students many students expressed their desire to be acquainted with such programmes.

- Steps must be taken to ban pornographic material from mobile phones in the college campus (this suggestion came from the students).

- Installing locks from within, lights and placing waste disposal bins in all the toilets could be done after taking stock of the situation in all the toilets in the institutions. Cleanliness related responsibilities could be assigned to an Estate Committee that has student representatives. This not only gives a sense of responsibility but also makes them accountable for maintenance of infrastructure. It is also advisable to consider relocation of those toilets situated near class rooms, drinking water facilities and labs to ensure a sense of privacy to women students.

- CC TVs could be installed in parking lots and laboratories.

- A Woman's Retiring room be provided both for students and staff in all the three institutions. These rooms could serve as a resting place in times of physical discomforts that they may experience during certain periods of their life. It is also advised to equip these rooms with emergency medical kits, sanitary napkins and such other material that women may require in emergency situations.

- A playground for women in the MTDI would enable them to relax in privacy.

- Self-defense classes could be organised for all women students.

- A short term course on gender issues may be offered to students (men & women).

Given the commitment of Mahajana Education Society to issues of gender equality and maintaining a gender balance in the institutional ambience, it is hoped that the stage that has already been set for mainstreaming gender into campus life would be further strengthened in future.
